

COMPETENCY PROFILE

ENVIRONMENTAL AWARENESS

BTC: FISH 155 (36 clock hours/3 credits)

This course helps students gain an awareness of the impact that people, industry and development have on the environment related to the fisheries' industry. Students will learn about the proper use and disposal of materials hazardous to the environment.

- Describe why Natural Resources must be managed.
- Explain how people, industry, and development have impacted the fisheries industry.
- Describe how development impacts watershed areas.
- Explain how dams in the rivers affect the fisheries industry.
- Describe ground water contamination and how it is caused.
- Describe how logging operations impact the environment.
- Describe the effects of mining operations on water quality.

College Textbook:

 Fish Culture Handbook
