

TECH PREP ONLINE Student Registration Page

Students access the Whatcom Tech Prep online registration site at <http://www.techprepwa.org/wa/wtpc>

First time Whatcom Tech Prep online registration site users will see the following screen when clicking the “New Student Registration”

You register via a secure server to protect your privacy! Required information fields are indicated in red.

- You will be assigned a Tech Prep Identification number.
- If you misplace your Tech Prep online registration ID number, it can be quickly sent via email (if email address was provided).
- Once you click the “Next” button, you will **not** be able to change any information on this page. If you need to update any information, site administrators will perform this task. Click the “Contact Us” link and we’ll be glad to help you.

Students indicate the following information:

- Current grade in school
- Whether or not you've previously received Tech Prep credit
- When you plan to enroll in college
- Career Pathway – Regardless of the Career Pathway selected, you are free to take any class
- Articulation – the college equivalent course you are enrolled in at your high school

Upon completing the above screen, students should click “Next”

Please note: High School students pay the \$25 Tech Prep enrollment fee one time *for each* college from which they want to receive college credit. Students can earn unlimited college credits via Tech Prep. If you need financial assistance, please contact your guidance counselor for information about fee waivers.

**If you need help, please contact Whatcom Tech Prep Consortium at:
360-752-8409 or email us at: techprep@btc.etc.edu
Your school’s Career Center Specialist or teacher can also help answer your questions**
